

Chandler

Chase D. Davis DDS FAGD

You were recognized by your peers as a 2020 "Top Dentist" in PHOENIX magazine in both the General Dentistry and Cosmetic Dentistry categories, what are some of your favorite treatments?

When one of our patients gets a new smile makeover, we see more than their smile change. Their eyes and personality improve, they seem happier and more confident. So offering veneers, or invisalign has to be on top of the list. I really enjoy helping our patients have a comfortable visit by offering sedation options and keeping their office visits to a minimum. I believe we won the General Dentist category because we offer as many procedures as possible in our office and we have the best specialists to refer to when we need 2nd opinions or more advanced care.

How has your office changed since COVID 19?

I think COVID19 blindsided a lot of us, from large corporations to small businesses, like ourselves. We are so thankful for our team and patients who have been understanding with the changes we have made to keep them safe. Although the dental office has already been practicing hospital grade sterilization and providing proper PPE, COVID19 has helped us up our game and look for ways to keep our patients and team safe. I have also learned that it's okay to slow down and spend some time with our families and friends as that is what brings us happiness and joy throughout our lives.

I see you went to The Ohio State University, why did you choose to go there?

I love the midwest and am a big sports fan. So being from Utah and at that time there were no Utah dental schools, I decided to go to Ohio State for its reputation and great football and sports! We loved Ohio but we do not miss the cold and gray winters.

You have a 5.0 star rating and great reviews on Google and Yelp, what makes your office different from others?

I really believe our team makes our office what it is. Our patient care coordinators go above and beyond to help with your insurance questions and make sure insurances pay what they should to lower the patients out of pocket expenses. Our Dental Assistants are so welcoming, gentle, and knowledgeable. They will make you feel at home and help you get as comfortable as possible utilizing Comfort Menu items. Then there's our hygienists who are sincerely concerned for everyone's oral health and will spend the extra time educating and showing our patients how to have proper care. They are also so gentle and thorough. Our team is awesome and we have been blessed with such kind patients who post those kind words and ratings about us Doctors and our fantastic team!

What do you do in your spare time?

I hang out with my wife and three kids. We like to ride quads and our Can Am, camping, and travel. I also enjoy endurance events, like Ironman events and long cycling races. I completed Ironman Arizona in 2018 and look forward completing it again once we can race again.

Dental

Tyler L. Saunders DMD

What is it that you love about cosmetic dentistry?

I love helping people feel better about themselves. Doing a filling in the back of the mouth for a patient isn't quite as fulfilling as changing a patient's confidence by transforming their smile. Many people subconsciously change their smile, cover their mouth, or develop other habits to hide their teeth when talking or laughing because they are not happy with the appearance. After we do a cosmetic case for a patient, it is amazing to see the improvement in their demeanor. It may sound like an over exaggeration but I like to think that cosmetic dentistry can help people make big changes in their life.

What type of cosmetic procedures do you provide?

Many different procedures can be considered cosmetic in my opinion. This includes dentures, invisalign, veneers, crowns, bridges, composite bonding, whitening, implants, and even procedures to enhance the appearance of the gums. We provide all of these in our office.

What is the funniest thing a patient said to you while sedated?

We sedated a patient who was extremely nervous and she started feeling really comfortable. Just before we started working on her she began telling my assistant and I knock-knock jokes. They were not funny at all. Which of course was hilarious! Then she got very serious and asked me what I do for work. I said well I work at Chandler Dental as a dentist. She then turned to my assistant and asked her the same question. After we both told her that we work at the same place she said, 'wow that is so cool, what are the odds!'

Since you were born and raised in Mesa Arizona what are your favorite local restaurants?

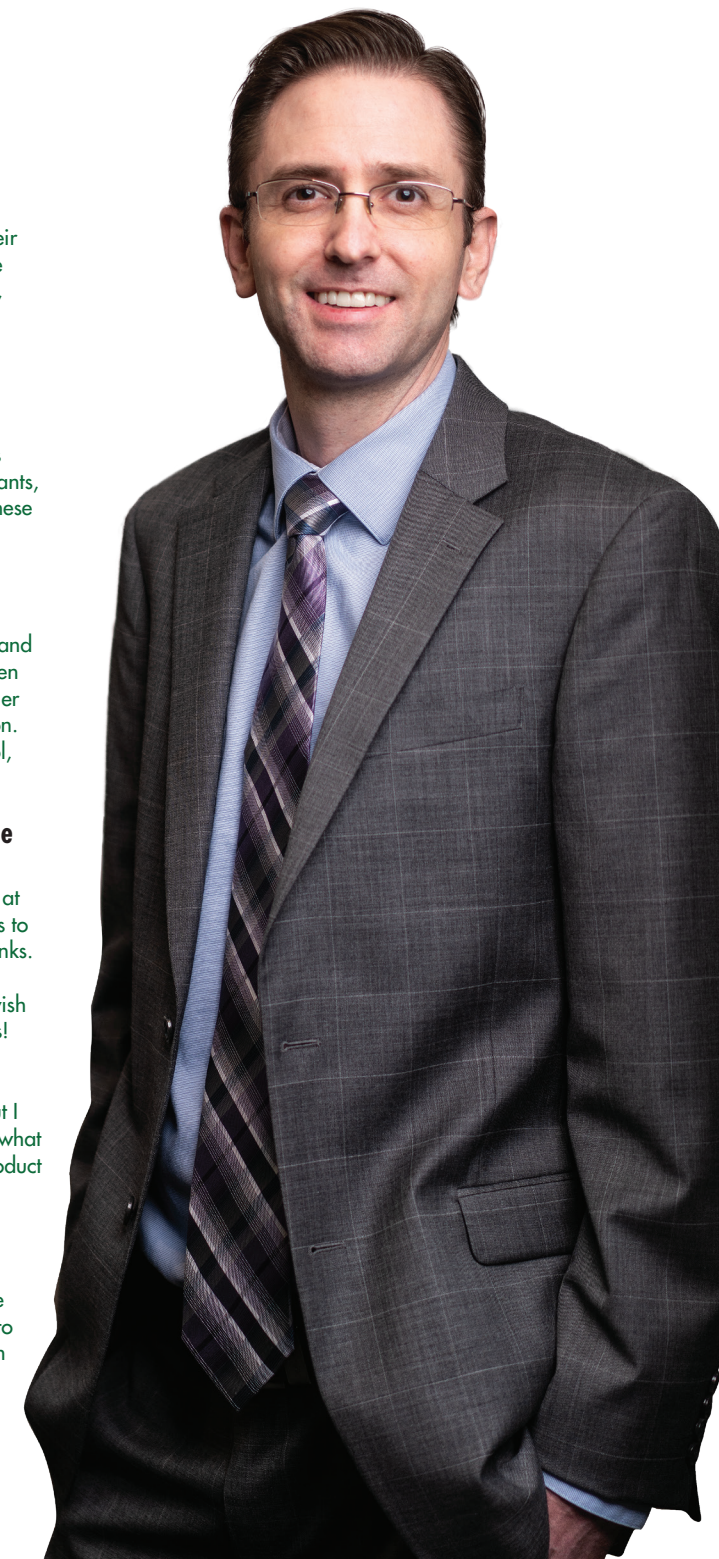

Pretty much any Mexican food restaurant that has chimichangas! I get made fun of at work because I'm always eating frozen burritos. My wife and I are frequent visitors to Cafe Rio - they know my name there and the manager is always giving me free drinks. I haven't received a Christmas card from them yet and I'm kind of upset about it ... maybe this year. We are also big pizza fans and love going to Spinatos. We just wish they would open a store closer to the Gilbert area - hint-hint to the Spinatos owners!

If you weren't a dentist what would you be doing?

That is a tough one because I love working with my hands doing different things but I think I would be a new product quality control expert of some kind. I have no idea what the official job title is but I drive my wife nuts by telling her about such and such product or idea and how they should have made it better or more user friendly.

What do you like to do in your spare time?

I am pretty much spending most of my time at home with my wife and kids on the weekends. My wife and I have 5 kids. The oldest is 11 and the youngest is 3, so the activities can range anywhere from playing Hot Wheels, Legos, and board games to building pinewood derby cars. Okay so maybe my kids aren't *always* there when I'm doing these things.

Dr. Davis and Dr. Saunders were both named 2020 PHOENIX magazine 'Top Dentists' by their peers in General Dentistry and Cosmetic Dentistry
